Berlin Admits That the Teutonic Allies Have Retired Before the Serbians and Vacated Their Positions.

(By Associated Press.)

With rain still keeping the operations of the entente allies and Germans on the western front in France mainly to artillery duels, interest in the world war has been transferred to the Russian, Rumanian and Macedonian fronts, on all of which heavy fighting is in progress.

The fierce battle which has been raging for several days west of Lutsk, in Volhynia, is still without decisive results for either side, while in Galicia along the Zlota-Lipa river, where the Russians are trying to push through to Lemberg, the Austro-German forces are still holding back the Russians. Berlin in its official account of the fighting near Lutsk says the Russian dead numbers thousands.

Bucharest is still silent with regard to the operations of Rumania's troops, which crossed the Danube river near Rustchuk and Turtu-

NEUTRALITY OF SWEDEN STATED

(By Associated Press.)

STOCKHOLM, Oct. 5.—"Sweden proclaimed her neutrality at the very outbreak of the war. All her actions since that time have borne out that proclamation, and all rumors or accusations that she has done, or intends to do, anything inconsistent with this attitude are due either to failure to comprehend her situation or to some less creditable reason. And whenever Sweden has taken any step displeasing one or other belligerent power her action has been dictated solely by consideration of the kingdom's own necessities and of its future welfare, and not by any partisan reasons. We hope sincerely that the belligerents will not make it impossible for us to maintain this attitude unto the end."

Thus, in effect, said Prime Minister Dr. K. H. L. Hammarskjold of Sweden to the correspondent of the Associated Press in the only interview he has granted any foreign journalist since the war began.

Throughout the interview the premier continued to lay stress on his government's desire to follow unswervingly the policy of unpartisan-ship thus far followed.

PEOPLE OF ISLANDS WILL NOT BENEFIT

(By Associated Press.)

SAN JUAN, Porto Rico, Oct. 5.—With the friendliest feelings toward the United States and with no desire to criticize or offend, I do not believe the inhabitants of the Danish Islands would be made happier by American purchase," said L. C. Helweg Larsen, governor of the Danish West Indies, on his arrival here from St. Thomas.

The governor is on his way to New York and Copenhagen, where he probably will appear before a committee of the Danish diet to give information with regard to the islands before the question of their sale to the United States is determined.

The governor added:

"The islanders are almost wholly negroes, restless and anxious for any change. They would be greatly disappointed in the event of American purchase."

GRAVE RESPONSIBILITY TO BE FACED

(By Associated Press.)

LONDON, Oct. 5.—When parliament reassembles next week the government will be confronted with new embarrassing proposals for the application of conscription to Ireland.

The Times and other newspapers recently have been conducting a strong campaign with this object in view and the decisions announced by the Man Power Distribution board and by General Sir William Robertson, chief of the imperial staff, that more men are urgently needed, will, it is believed, strengthen the hands of the agitators who have been joined by Sir Edward Carson.

Sir Edward asserts that the situation is such that without conscription in Ireland it will be impossible to even maintain the Irish regiments at the front in their proper strength. He contends that Ireland could provide another half million men of military age and asks what the colonies, which have made such sacrifices for the empire, will think of the shirking of Ireland.
